

INBERG-MILLER ENGINEERS EMPLOYMENT OPPORTUNITY ANNOUNCEMENT

DATE OF OPENING: February 12, 2010
APPLICATIONS ACCEPTED THROUGH: May 31, 2010
FROM: Jeremy J. Hernandez, Executive Vice President/Director
EMPLOYMENT OPPORTUNITY: **ENTRY-LEVEL GEOTECHNICAL ENGINEER**

Inberg-Miller Engineers (IME) is looking for a self-motivated individual to work, under the supervision of senior geotechnical engineers, on a wide array of geotechnical projects out of our Green River, Wyoming office. The position is full-time. Typical projects would include performing geotechnical and geological explorations for landfills, dams, various kinds of infrastructure (roads, bridges, waterlines, sewer), and building sites ranging from very large industrial projects to residential developments. The majority of projects are located in Wyoming; however, you could work anywhere in the Rocky Mountain Region.

- **Experience** - Knowledge of near surface geologic environments, with an emphasis on geotechnical engineering and hydrogeology is desired.
- **Education** – M.S. in Geotechnical Engineering or an equivalent combination of experience and education from which comparable knowledge and abilities can be acquired may be considered. (Successful completion of the Engineer-in-Training (E.I.T.), Fundamentals of Engineering (F.E.) desired.)
- **Compensation** - Competitive salary with compensation dependent upon relevant education, registration, certifications, training, and experience.
- **Benefits** - Excellent benefit package available including vacation, holiday, sick leave, medical, dental, disability, life insurance, long term care, Employee Stock Ownership Plan (ESOP), employer-matched 401(k). Financial assistance may be available for moving expenses.

A more complete Position Description is attached hereto and made a part of this Announcement. **To complete our application process, applicants must submit an Application for Employment, a current resume, and transcripts of studies from college(s) attended.** This information may be submitted on-line at www.inberg-miller.com, or through the mail addressed to Wendi Steeds, Inberg-Miller Engineers, 124 East Main Street, Riverton, Wyoming 82501. If you have any questions regarding our application process, please contact Wendi Steeds Toll Free at 877-228-8178 or 307-856-8136.

Inberg-Miller Engineers is an Equal Opportunity Employer and does not discriminate in its hiring practices. Each person, without regard to race, religion, color, national origin, sex, age, disability, or veteran's status, will receive equal consideration.

INBERG-MILLER ENGINEERS **POSITION DESCRIPTION**

DATE OF OPENING: February 12, 2010
POSITION TITLE: EntryLevel Geotechnical Engineer
REPORTS TO: Owners, Officers and Project Managers

POSITION FUNCTION:

- IME is looking for a self-motivated individual to work, under the supervision of senior geotechnical engineers, on a wide array of geotechnical projects out of our Green River, Wyoming office. Typical projects would include performing geotechnical and geological explorations for landfills, dams, various kinds of infrastructure (roads, bridges, waterlines, sewer), and building sites ranging from vary large industrial projects, schools, to residential developments. The majority of projects are located in Wyoming; however, some travel into adjacent states is likely.
- Entry-level geotechnical engineers are immediately required to be able to collect data in the field using sound engineering practices and report results to the project manager. Data analysis, reporting and entry-level project management opportunities exist depending on the individual skill sets and workloads. Good writing and communication skills are desired. Travel is dictated by our clients and projects.
- Typical duties may include collecting samples using geotechnical drilling techniques, performing field soil classifications, making geologic interpretations, and performing laboratory testing of soils to determine bearing capacity and consolidation and swell potential. Slope stability analysis and settlement analysis will also be performed. Monitoring well installations, water sampling, contaminant investigations, geologic mapping, cross-sections, and aquifer testing will also be performed. Construction materials testing and performing construction observations will be part of the job responsibilities.
- Our company employment philosophy is to cross-train our Engineers and teach them about the various kinds of work IME performs. In addition to geotechnical projects, you could be involved in surveying, civil, environmental, and contract drilling projects from time to time. While we do not expect everyone to be an expert in all these areas, we believe that our Engineers should have a basic understanding of our core business activities and should be able to help out in all of these disciplines as the need arises.

TYPICAL DUTIES, RESPONSIBILITIES, AND SKILLS ESSENTIAL TO THE POSITION:

- Must be able to follow instruction, work independently, or as part of a project team.
- Complete assigned tasks in a timely, logical manner and exercise discretion and good judgment in accomplishing assigned tasks and goals.
- Must have strong organizational, communication, interpersonal, and intellectual skills
- Ability to organize, prioritize, and follow multiple projects and tasks to completion.

**TYPICAL DUTIES, RESPONSIBILITIES, AND SKILLS ESSENTIAL TO THE POSITION:
Continued**

- Under general supervision of the owners, officers and project managers, be able to effectively promote IME's services and expand clientele.
- Assist the owners, officers and project managers in directing, managing, and supervising the daily local tasks and immediate affairs of the services provided.
- As directed, provide supervision, management, training, and assistance to employees in performing their duties and responsibilities.
- Ability to log and classify subsoils, make logical geologic interpretations, prepare cross-sections and geologic maps, perform mathematical calculations involved in engineering analysis, and compile data into project reports.
- Become proficient with computer programs associated with Microsoft Windows operating systems (Word, Excel, Outlook, etc).
- Ability to communicate well, both verbally and in written form.
- Ability to become proficient in the use of laboratory and field testing equipment and procedures.
- Ability to work in adverse weather conditions, nights, weekends, and holidays, if needed.
- Willingness to work more than 45 hours per work week as the job schedule dictates.
- Ability to efficiently and cost effectively coordinate personnel, multiple projects, and clients' schedules in order to meet the needs of our clients and project budgets.
- Ability to read and comprehend technically-written material.
- Ability to establish and maintain positive and effective working relationships with clients, fellow employees and anyone with whom you come in contact at any time during working hours.

EXPERIENCE:

- Any relevant experience with geotechnical drilling, borehole logging, monitoring well installation, field and laboratory construction materials testing, construction observation, technical supervision, and any relevant experience working on landfill projects, geotechnical engineering projects, and near surface geologic projects is desired.

EDUCATION:

- M.S. in Geotechnical Engineering or an equivalent combination of experience and education from which comparable knowledge and abilities can be acquired may be considered. Successful completion of the Engineer-in-Training (E.I.T.), Fundamentals of Engineering (F.E.) examination is desired.

TRAINING:

- 40-Hour Occupational Safety and Health Administration (OSHA) Hazardous Waste Site Worker, American Concrete Institute (ACI) Concrete Field Testing, Nuclear Moisture Density Gauge, Mine Health and Safety (MSHA), AutoCAD with Civil Engineering applications, and First Aid/CPR desired.

OTHER REQUIREMENTS:

- Ability to represent IME in a professional manner including, but not limited to, personal appearance and cleanliness, and communications techniques with clients, fellow employees and anyone with whom you come in contact at any time during working hours. Good judgment, consistent with acceptable business norms, should serve as a basis for the measurement of personal appearance and cleanliness. Extremes of any sort are unacceptable.
- Ability to complete required training and to pass required tests necessary to obtain the certifications required to perform the duties and responsibilities of the position.
- Ability to achieve negative results on a drug test. Employment will be denied to anyone with a positive pre-employment screen according to our current Substance Abuse Policy.
 - IME has implemented six types of drug and alcohol testing: (1) Pre-employment (drug testing only), (2) Reasonable suspicion, (3) Post-accident, (4) Random, (5) Follow-up, and (6) Return-to-duty.
 - IME has three drug and alcohol testing plans: (1) IME's Company Drug and Alcohol Testing Plan, (2) the Department of Transportation – Federal Motor Carrier Safety Administration (DOT-FMCSA) Plan, and (3) the Department of Transportation – Research and Special Programs Administration (DOT-RSPA) Plan. Depending upon the position for which an employee has been hired, the employee could be involved in more than one of these programs if the duties of the employee require him/her to perform “covered functions” associated with the regulations of the Department of Transportation in 49 CFR, Parts 40, 199, and 382.
- Ability to suspend the use of tobacco during working hours both in the IME' workplace and vehicles, and that of our clients'.
- Ability and willingness to abide by set policies and/or safety programs established by our clients and/or regulatory agencies which govern our performance and behavior in the normal course of our work while on clients' property or job site.
- Ability and willingness to read, comprehend, and abide by our company policies.
- A valid driver's license will be required if an essential job function requires you to operate a company-owned or leased motor vehicle. For applicants that meet this criteria a Motor Vehicle Report (MVR) will be requested and applicants with three moving violations within the last three years or a DWUI conviction within the last five years will be automatically deleted from further consideration for employment.
- After an offer of employment is made, continued employment is conditioned upon the results of a medical exam. The results of the medical exam must demonstrate the medical and physical capabilities to perform all of the demands of the essential functions of the position, with or without reasonable accommodations.

SUPERVISION - RESPONSIBILITY FOR WORK OF OTHERS:

- Develop the ability to supervise technicians and drillers.

PHYSICAL DEMANDS OF ESSENTIAL JOB FUNCTIONS:

- Work Type: Medium, exerting up to 50 pounds of force occasionally and/or up to 10 pounds of force frequently, and/or up to 5 pounds of force constantly to move objects.
- Climbing/Balancing: Climb inclines, ladders, and uneven surfaces. Balance required.
- Walking: Frequently.
- Stooping/Bending: Frequently.
- Stand/Sit: Stand/sit about 50/50 percent of job time.
- Reaching: Frequent reaching, overhead as well as horizontal.
- Vision: Corrected vision to 20/20 or adequate to perform essential functions.
- Color Vision: Ability to identify and distinguish colors.
- Speech: Constantly express ideas by means of fluent English.
- Eye/Hand/Foot Coordination: Frequently operate precision equipment.
- Manual Dexterity: Frequently operate precision equipment.

ENVIRONMENTAL DEMANDS OF ESSENTIAL JOB FUNCTIONS:

- Inside/Outside: Work inside and outside.
- Cold/Heat: Adverse weather conditions possible.
- Wet/Dry: Adverse weather conditions possible.
- Noise/Vibrations: Exposure to heavy construction and equipment noise.
- Hazards: Moderate exposure to traffic and construction areas. Exposure to hazardous materials.
- Fumes/Dust/Odors: Exposure to dust, construction equipment fumes, and natural gases.

MACHINES, TOOLS, EQUIPMENT AND WORK AIDS USED

Construction Materials Testing Equipment	Company Vehicles
Environmental Sampling and Testing Equipment	Drafting Tools
Computers	Light Table
Surveying Instruments	Calculator
Plans and Specifications	Text books and Manuals
Respirators and/or SCBA's	

REMARKS:

The above position description is intended to describe the duties of an Entry-Level Geotechnical Engineer in general terms and does not necessarily describe all of his/her duties.
